Extra Credit #2

Due: January 27, 2012   **Points:** 30

For this homework, please put refinements for all your programs into one file called "refinements.txt" or "refinements.pdf", and error journal entries for all your programs into one file called "errors.txt" or "errors.pdf".

Submit this program in the Extra Credit 2 area of SmartSite—*not* in the Homework 2 area.

Extra Credit: (*30 points*) Find the smallest positive number that Python can represent.
