Tentative Syllabus

Because we teach to the students, and not to the syllabus, these dates and topics are tentative and subject to change without warning. In particular, if we don't discuss something you're interested in, ask about it! We may very well add it or modify what we're covering to include it.

The discussion sections will present additional material and examples. The discussion section topics are *tentative* and subject to change as we see fit. Regardless of the topic listed, all discussion sections have a few ground rules:

- If you don't understand something in lecture, or are having problems with the assignments, we encourage you to ask about it. The primary goal of a discussion section is to discuss points that are confusing you, and we will clear up any confusion even if some material is not covered.

- You are responsible for material covered in discussion section. That material may be on assignments and exams.

	date	topic
	Mon, Mar 28	*Discussion Section*: **not held**
