Outline for May 3, 2006

Reading: *text*, §8.2.3—8.4

1. Greetings and felicitations!
2. Policies that change over time
   a. Generalization of noninterference
   b. Example
3. Composing deterministic, noninterference-secure systems
4. Nondeducibility
   a. Event system
   b. Deducibly secure
   c. Composing deducibly secure systems
5. Generalized noninterference
   a. Assumptions and nondeducibility
   b. Composing generalized noninterference systems
   c. Feedback-free systems
