

## Extra Credit #1

**Due:** Tuesday, January 23, 2018 at 11:59 p.m.

**Points:** 30

---

Please turn in your answers for the homework assignment on Canvas under Extra Credit #1 there.

1. (10 points) Modify the fahrenheit-to-centigrade program so that it prints at most 2 digits after the decimal point for each temperature.
2. (20 points) Find the smallest positive number that Python can represent.
